PROJECTS

Full-Stack Portfolio

[My Portfolio](#)

Developed a personal portfolio website using React and Node.js to showcase my skills, projects, and achievements in a structured manner. The frontend is built with React, and the backend is handled using Node.js to support basic functionalities. The portfolio includes sections such as About Me, Projects, Resume download, and Contact form, allowing easy communication and access to my work. This project demonstrates my ability to build a full-stack web application and organize information in a professional format.
